# Onyekachukwu Divine

Software Engineer

---

Lagos State, Nigeria | (+234) 806-415-0715 | tech.divine101@gmail.com | LinkedIn | GitHub

---

Software Engineer with 3+ **years of experience** building and shipping production web applications using **React, Next.js, TypeScript, and modern web technologies**. Experienced in developing event platforms, government revenue systems, and internal business applications, with a strong focus on reusable frontend architecture, REST API integration, authentication, role-based access control, and performance. Experienced across the software development lifecycle, from translating product requirements and Figma designs into production-ready interfaces to testing, debugging, code review, and deployment. Strong collaborator with product, design, and engineering teams focused on delivering reliable and maintainable software.

---

## PROFESSIONAL EXPERIENCE

Software Engineer
**ISCE**: Lagos, Nigeria | May 2023 - Present

- **Built and maintained GADA**, an event management and community platform that enables organizers to create and manage events while allowing attendees to discover events, purchase tickets, communicate with other attendees, and share event experiences.
- Developed responsive and reusable frontend components using **Next.js, React, TypeScript, Tailwind CSS, and Shadcn/UI**, maintaining consistent UI patterns across multiple products and platforms.
- **Contributed to the development of transport revenue collection systems for the Anambra and Edo State Governments**, implementing frontend workflows for revenue operations, officer management, role-based access, offense reporting, geolocation, and administrative dashboards.
- Integrated frontend applications with **RESTful APIs**, handling authentication, data fetching, form validation, error states, and complex user workflows across multiple business applications.
- **Designed and developed an internal mailing platform** to support company-wide email campaigns and improve the efficiency of internal marketing operations.
- Developed and maintained the company's portfolio website, translating UI/UX designs into a responsive, performance-focused web experience across mobile, tablet, and desktop devices.
- Participated in the full software development lifecycle, including **requirements analysis, sprint planning, implementation, code reviews, debugging, testing, and production deployments**.
- Collaborated with designers, backend developers, and other stakeholders to translate product requirements into maintainable frontend solutions and resolve technical and usability challenges.
- Applied frontend performance and usability practices including reusable component architecture, responsive layouts, optimized rendering, and efficient client-side state management.

## EDUCATION

APTECH LEARNING, Mumbai, India - Advanced Diploma in Software Engineering **(ADSE) - 2023**

## CERTIFICATION

Certificate of Proficiency in Information System Management **(CPISM) - 2021**
Diploma in Information Systems Management **(DISM) - 2022**
Certificate of Completion: Al Fluency Framework - **2026**

## TECHNICAL SKILLS

- **Languages:**
  TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Frontend:**
  React.js, Next.js, Tailwind CSS, Shadcn/UI, Framer Motion, Responsive Web Design
- **State & Forms:**
  Zustand, Redux, React Hook Form, Zod
- **Backend & Data:**
  REST APIs, Prisma ORM, PostgreSQL
- **Authentication & Access Control:**
  NextAuth/Auth.js, Session Management, Role-Based Access Control
- **Tools & Workflow:**
  Git, GitHub, Figma, CI/CD, Agile/Scrum

## LANGUAGES

- English
- Igbo
